**Cookware and Kitchen Tool Material Disclosures**

At Dreamfarm, we pride ourselves on creating original, problem-solving kitchen tools that make everyday tasks easier. The safety, wellbeing, and satisfaction of our customers are at the core of everything we design. We are fully committed to producing high-quality, innovative, and safe products. Dreamfarm products are manufactured from materials permitted for food contact under U.S. Food and Drug Administration regulations (21 C.F.R. Parts 175–178) and have been tested to European food-contact standards.

In line with our commitment to transparency and regulatory compliance, we provide the following chemical disclosures in accordance with **California Assembly Bill No. 1200 (A.B. 1200)**, **Colorado House Bill 22-1345 (H.B. 22-1345)**, and **Connecticut Senate Bill 292 (S.B. 292)**.

These laws require manufacturers to disclose the presence of certain chemicals that are intentionally added to product handles or to any product surface that comes into contact with food or beverages.

**Key Definitions**

- **"Cookware"** means durable houseware items that are used in homes and restaurants to prepare, dispense, or store food, foodstuffs, or beverages. "Cookware" includes pots, pans, skillets, grills, baking sheets, baking molds, trays, bowls, and cooking utensils.
- **"Intentionally Added Chemical"** means a chemical that a manufacturer has intentionally added to a product and that has a functional or technical effect in the product, including the components of intentionally added chemicals and intentional breakdown products of an added chemical that also have a functional or technical effect in the product.

**Colorado H.B. 22-1345 & Connecticut S.B. 292 Disclosures (PFAS)**

Colorado's H.B. 22-1345 and Connecticut's S.B. 292 require manufacturers to disclose the intentional addition of PFAS (per- and polyfluoroalkyl substances) in cookware, kitchenware, and food contact surfaces.

- **Disclosure:** PFAS chemicals are not intentionally added to the handles or food contact surfaces of the Dreamfarm products identified in the tables below.

**California A.B. 1200 Disclosures (DTSC Candidate Chemicals)**

Under California's Health & Safety Code, A.B. 1200 mandates that manufacturers disclose the presence of any intentionally added chemicals that appear on the California Department of Toxic Substances Control (DTSC) Candidate Chemicals List, where those chemicals are present in the handle of the product or in any product surface that comes into contact with food, foodstuffs, or beverages.

The tables below identify the Dreamfarm products for which this disclosure is required, the chemicals present in those products that also appear on the DTSC Candidate Chemicals List, the authoritative lists DTSC referenced in compiling the designated list for each chemical, and links to those authoritative lists. The DTSC Candidate Chemicals List and the underlying authoritative lists are available at

https://dtsc.ca.gov/scp/authoritative-lists/.

**Chemical Disclosure Tables:**

The following tables identify the specific Dreamfarm products for which a chemical disclosure is required to comply with California A.B. 1200.

**A Note on Stainless Steel:** Please note that several chemicals on California's tracking list - such as Chromium, Iron, Nickel, Manganese - are the standard, fundamental ingredients required to create stainless steel. They are what naturally give the metal its durability, strength, and rust-resistant "stainless" properties. In accordance with A.B. 1200, Dreamfarm discloses below the alloying elements present in the stainless steel components of the products identified. Dreamfarm does not add any chemicals beyond those inherent to the stainless steel alloy during manufacturing.

**Table 1 — Products Requiring Disclosure**

| Product | AB1200 Chemical Disclosure |
|---|---|
| BBQ Brizzle | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| BBQ Chopula | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| BBQ Clongs 15inch | This product contains Chromium Compounds, Chromium (Total), Iron, and Manganese and Manganese Compounds. |
| Big Grindenstein | This product contains Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Bishears | This product contains Chromium Compounds, Chromium (Total), Iron, and Manganese and Manganese Compounds. |
| Champop | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, Nickel (metallic and alloys), Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Clongs 9" | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Clongs 12" | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Corpeel | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Eggler | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Flapple | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Flisk | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Fluicer Steel | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Garject | This product contains Chromium Compounds, Chromium (Total), and Zinc. |
| Garject Lite | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Grindenstein | This product contains Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Hullapit | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Icepo | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Acrylonitrile, and 1,3-Butadiene, Styrene. |
| Kneed | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |

| | |
|---|---|
| Knibble Lite | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Levoons | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Mini Flisk | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Nocutu | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Acrylonitrile, and 1,3-Butadiene, Styrene. |
| Ograte - Coarse | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, Nickel (metallic and alloys), Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Ograte - Medium | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, Nickel (metallic and alloys), Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Oileroo | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, Nickel (metallic and alloys), Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Oileroo Lite | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, Nickel (metallic and alloys), Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Ortwo | This product contains Chromium Compounds, Chromium (Total), and Zinc. |
| Ortwo Caddy | This product contains Acrylonitrile, 1,3-Butadiene, and Styrene. |
| Ortwo Lite | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Ozest | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |
| Scizza | This product contains Chromium Compounds, Chromium (Total), Iron, and Manganese and Manganese Compounds. |
| Sharple | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Acrylonitrile, and 1,3-Butadiene, Styrene. |
| Sharple Y | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Acrylonitrile, and 1,3-Butadiene, Styrene. |
| Smood | This product contains Chromium Compounds, Chromium (Total), Iron, Manganese and Manganese Compounds, Nickel and Nickel Compounds, and Nickel (metallic and alloys). |

**Table 2 — Chemicals, Authoritative Lists, and Links**

**Scope and Currency of This Disclosure**

This disclosure is current as of 29 October 2026 and applies to the Dreamfarm products identified above that are offered for sale in California. Dreamfarm will update this page as product materials change or as the DTSC Candidate Chemicals List is revised.
